# FALL ATALOGUE

LA CROSSE WISCONSIN

It is with pleasure that we hand you our list of Fall and Winter blooming bulbs and plants, of small fruits and trees, of rare vegetables and farm seeds for Fall planting and Fall sowing.

The sorts enumerated in this Fall catalogue are the cream of all sorts and we know that they will give you great satis-

faction if you will plant same.

# SPECIAL PRICES.

We are the largest growers of bulbs, vegetables, nursery stock and farm seeds, such as Winter Wheat, Clovers, Grasses, Potatoes, etc., etc., in America and we are always ready to give you the very lowest prices.

If you will make out a list giving us your exact wants, we will send you our lowest wholesale price by return mail. Our great Plant and Seed Catalogue for 1910 will be mailed to all who send us an order out of this catalogue. Our Spring Catalogue will be ready January first for distribution AND IS PRINTED IN BOTH ENGLISH AND GERMAN.

(Unser Deutscher Fruehjahr's Katalog wird jedem Deutschen, der uns eine Bestellung aus diesem Katalog einsendet, unentgeldlich zugesandt werden. Derselbe wird am ersten Januar zum Versandt bereit sein.)

# SPECIAL LOW PRICES.

The vegetable seed prices are the lowest at present offered anywhere for high pedigree seed.

What we would like is this: if you will kindly make out an itemized list of your wants in the vegetable seed, bulb, plant, tool or farm seed line and let us figure with you, we will make you very low prices for orders received before December 15, 1909.

# BEGONIA REX.

Loveliest winter house ornamental plants. See page 4. Price, 2 for 30c; 4 for 50c; 6 for 75e; 10 for \$1.00.

# A BRILLIANT WINTER BLOOMING BULB COLLECTION FOR 70c POSTPAID.

BLBS FORWINTER FLOWERING

## WINTER-BLOOMING BULBS.

The following 4, price: Each, 5c; 10 for 35c; the 4 for 15c.

- 1. Oxalis-A great winter-blooming bulb.
- 2. Jonquils-Splendid for in or out door
- 3. Scilla—Blooming continuously; blue, bell-shaped, one of the first hardy blue fall blocmers. blue fall
- 4. Daffodils-Closely related to Narcissus, very fragrant.

# Freesia.

We know of no pure white blooming bulb that is more justly sought by florists and gives greater satisfaction as a winter bloomer than the Freesia. They force readily in the house and will bloom by Christmas and give a great quantity of blossoms. The price is so low that we hope everyone will avail themselves of a dozen of these rare beauties. Each, 3c; 4 for 10c; 12 for 20c.

Giant Bulbs of Freesia, each 5c; 6 for 25c; 12 for 40c, postpaid.

Snow Drops.

They are the first flowers that greet us in Spring. Their pretty snow-white blossoms appear in March, a few days ahead of the Scilla, flowers and form a charming contrast. Blosing contrast. Blossom indoors usually about Christmas. Each, 4c; 3 for 10c; 10 for 25c; 25 for 50c; 100 for \$1.80; postpaid.

ROMAN HYACINTHS.

ROMAN HYACINTHS.

The earliness and profusion of bloom have made this variety exceedingly popular. We sell annually nearly half a million bulbs of this variety. Each bulb will throw up 2 to 4 spikes of bloom, and they are so easily grown and so early that if potted in August and September they can be brought into flower in November and December, and by a succession of plantings can be had in bloom throughout the winter. Not hardy. Price, first size bulbs, 8c each; 5 for 35c; per 10, 65c, postpaid.

SNOW DROPS.

# HYACINTHS

The peer of all bulb flowers for house bloom is the Hyacinth. Nothing is quite so serviceable, so beautiful, so showy as the Hyacinth. Salzer's Show Hyacinths are perfect in bloom, growth and color. If you want something really superfine, a little bit brighter than your neighbors, plant Salzer's Show Hyacinths. They do equally well for pot or water culture. They are especially grown for us by one of the best expert growers in Holland.

# SALZER'S FAMOUS SHOW HYACINTHS.

SALZER'S FAMOUS SHOW HYACINTHS.

### WINTER DECORATIVE PLANTS.

Known the world over as the painted beauties, the most glowing, brilliant of all, semi-hardy house pot plants. Nothing can possibly exceed them in beauty for a house plant for winter use. Among the rarest, choicest plants that grow are found the Rex and Blooming Begonias. Indeed, today no collection is complete without these exquisite beauties. The leaves of the Rex varieties are massive and grand, while the foliage and blossoms of the Blooming sorts are unrivaled.

Countess Louise Erdody—See cut No. 1—The striking peculiarity which distinguishes it from all other Begonias consists in the fact that the two lobes at the base of the leaf do not grow side by side, but one of them winds in a spiral-like way until in a full grown leaf there are four of these twists lying on the top of the leaf. Each. 250. the leaf. Each, 35c.

**Drops of Blood**—This is a superb new variety recently imported. The leaf is dark, with center blotched with red of a blood hue. It is without question the finest Begonia grown. Each, 25c.

Queen of Hanover—Leaves silvery white, sometimes greenish white; border veined; very fine. Each, 25c.

Scepter-One of the finest dark leaved varieties. Each, 25c.

Silverstate-A bright, silvery leaf; rapid growth. Each, 25c.

American Beauty-The grandest of all new Begonia Rex. It is simply perfect, both in growth and appearance.

Above wonderful 6 named Rex—Catalog price, \$1.65; \$1.10 postpaid.

# Happy Home Collection of 21 Plants, \$1.25.

This great plant collection, composed of the best the greenhouses of America or Europe can furnish, a rainbow of colors, we offer at a price so completely within the reach of everybody. Specially arranged for winter house bloom and decorations.

To meet the demand of our large plant trade we are obliged to grow enormous stocks of all kinds of roses, plants and bulbs—often more than necessary—to make sure that we have enough. In September, we take this stock of various rare and good things and make it into a Happy Home Collection and offer them to our customers at 21 plants for \$1.25, giving them 3 to 4 times the value of their money.

This collection is immensely popular among our customers, and we append hereto a letter from Mrs. Jane Russell Ayres of Ohio, who obtained a collection from

"JOHN A. SALZER SEED CO.—Gentlemen: I have purchased plants for twenty years. It's safe to say that I have spent over \$200 during this time, but never before have I really felt that I got more than my money's worth until I bought of you. All the plants I obtained from you were A No. 1. Yes, I got five times more than my money's worth. These twenty-two plants (you threw in one extra) contain Caladiums, Cannas, Achanias and Begonias, Palms, Roses, Azaleas and Geraniums, Carnations and Chysanthemums, Gloxinias and Salvias, Oranges and Callas; yes, all of them choice, well-grown, rare plants. It is the greatest surprise I ever had. You are positively too generous. My neighbors, Mrs. Wilson, also Mrs. Medary and Murray, each, when they saw my plants, ordered a collection."

# What Is the Happy Home Surprise Collection?

It is composed of everything we have a surplus of, our selection, consisting of rich, rare, beautiful plants and bulbs, entirely our own selection of surplus plants and bulbs—all fine. We send such fine plants that you are sure to be pleased with them. The price is: \$\mathref{k}\mathref{T}\$1 plants, postpaid, for 70c; 21 plants, postpaid, for \$1.25.\square

# JITS==Iron Clad.

A small bed of Strawberries, a patch of Raspberries, a row of Currants, a few hills of Blackberries, a half-dozen Grapes, will keep a family in fruit almost all summer. These are as easily cared for as the cabbage, as sure of yield as the potato, and as hardy as the oak. Strawberry plants, early planted, will frequently give a good crop of berries same season.

An Our prices may seem high, but they are cheap for hardy, ironclad stock—stock that laughs at 40 degrees below zero, appeared last spring early, fresh and green, and has borne enormous crops the past season.

For extreme early in green Beans we recommend Salzer's Six mend Salzer's Six Weeks, Extra Early Valentine and Salzer's First of All. We have hun-dreds of plant-ers in the South using from 1 to 10 bushels of these magnifi-cent sorts annucent sorts annually.

WARDWELL'S
KIDNEY WAX.
There is no
Wax Bean so
well known and throughout the United States as this bean. Our stock is unusually fine and ally fine and we can heartily

# Salzer's Golden Wax Beans.

Without question the very best Golden Wax Bean for general purposes grown. It is extremely prolific, tender and very early, of delicious flavor and one of the best selling Beans in the market. Market gardeners will find that it sells like hot cakes.

# Midsummer Wax.

Has become immessely popular; our own introduction; comes into play immediately after the Golden Wax. Large, fine, transparent pods, very rich and tender.

# Salzer's Earliest Wax.

Shortly leaped into popularity and is in enormous demand. One of the very earliest Beans on earth. It is a money-maker for the market gardener. Salzer's Giant Stringless Wax.

Greatest Bean of the century, pods of enormous length, rich, julcy, tender and a great money-maker for the market gardener. Nothing ever before offered like it.

# GREEN BUSH BEANS.

# Salzer's Early Six Weeks.

We sell thousands of bushels of this Earliest Green Bean. Note low price per bushel. Pk., 90c; bu., \$3.40; 2½ bus., \$8.25. These low prices good only as long as stock lasts.

# Salzer's First of All.

If there is a vegetable that we like a little bit better than any other it is a tender Green Bean, properly served with a leg of mutton, a dish fit for the gods.

Now, then Salzer's First of All will give us these green Beans—carlier, tenderer, juicier, finer, sweeter, better, and quicker than any other Green Bush Bean that we know of. The Bean is extremely early, is stringless, tender and prolific, in fact, is perfection in every respect.

Salzer's Extra Tender Podded Valentine Bean.

Our stock of this is of magnificent quality. It is the great Bean for the market gardener. It is very productive, very early, one of the very finest market and shipping Beans known.

# Colossal Stringless Green Pod.

Pods often 7 to 8 inches long of great tenderness, very crisp, extremely early, of the richest quality imaginable, a regular gold mixes to the market gardener.

can

20 The Cabbage Seed Crop on Long Island, where the only good American Cabbage Seed is raised, was almost a complete failure last season, and prices for that seed are necessarily higher. BEWARE OF CHEAP SEED, as it is either old stock or imported, the heading qualities of which are always doubtful.

# Salzer's New Cauliflower, "July 1st.

Stand aside! Hear the tale! For many years we have chal-lenged the world to produce a finer handsomer or earli handsomer or carlier Canliflower than our Salzer's Earliest Surchead. None ever dared accept the challenge; no one ever raised a handsomer, earlier Cauliflower than Salzer's Earliest Surchead! But today Earliest Surchead! Surcheads Salzer's Arr But to Sure

head hangs its head and modestly proclaims Salzer's July 1st as the earlier.

# Midsummer Cauliflower.

A splendid, large, fine, early heading Cauliflower,

# Salzer's Surehead Cauliflower.

Will surpass in earliness the Showball and every other known variety. Whether for forcing or open ground, planted early or late, it is the surest header of all. Very dwarf and compact in growth, it can be planted very closely, 18 inches each way, and is particularly desirable for forcing under glass or for extra early garden.

# Cauliflower

me by sending me such excellent seeds. Your Cabbage Seed was the means of raising the mortgage from my place."

HENDERSON'S SUMMER.

Grown in very large quantities in the South. It is not quite so early, so large, nor so well flavored as Salzer's Ideal.

VOLGA CABBAGE. A half early sort, ripening after Salzer's Ideal, or Early Spring, very fine indeed.

SALZER'S GIANT FLAT DUTCH.
This is the great late Cabbage that has made the Salzer Seed Company so nous. It is the very best late Cabbage grown. famous.

SALZER'S IDEAL.

This is without question the very finest, best flavored, handsomest shaped, quickest growing, flat, extremely early spring Cabbage known. There is nothing quite so finely flavored and so large for an extreme early as Salzer's Ideal.

# Salzer's Extra Early Jersey Wakefield.

Well known; forms fine, solid heads of good size and of the finest quality; conical in shape, with very few outside leaves. About six to eight days later than Salzer's Lightning. Our strain is remarkably pure and waranted to give satisfaction. faction.

# Early Spring Cabbage.

As early as the Wakefield, but one-third more productive. This new Cabbage is grown by many gardeners to their great satisfaction. It is extremely early for so large a head, and ripens about the same time as Salzer's Ideal Cabbage does,

# NEW CARROT-

Do you know that there is used today five times as much Carrot seed as there was ten years ago? There is reason for this. There is scarcely a vegetable that today is in greater demand than the extremely early Carrot, and in Salzer's Dewdrop we have the par excellence of all Carrots. It is fine in shape, the right color, very juicy, very early, very sweet and will please the most fastidious. It's a great novelty. Price: Pkg., 19c; oz., 20c; 1/4 lb., 35c; lb., \$1.25.

SALZER'S EARLIEST.
Salzer's Earliest is acknowledged as the earliest, finest table variety in the world. There is nothing equal to it anywhere.

LONG

GREEN

Long

SALZER'S MORNING STAR CUCUMBER. A very fine variety, beautifully shaped, hold-ing its rich green color throughout the entire ser throughout the entire sea-SOL.

IMPROVED LONG
GREEN.
This variety has taken
the lead all through the
world. Indeed, there is
more Improved Long
Green Cucumber seed sold
than of any other single
variety. It is the market
cardener's favorite.

# SALZER'S PROLIFIC PICKLE CUCUMBER,

This is the finest picking variety grown, enormously productive.

FIRST OF ALL.

fine, medium sized. a heavy, extra sweet, extra heavy, extra sweet, deliciously flavored carrot. enormously productive.

## DANVER'S YELLOW CARROT.

Grown in great quantities throughout the South. though it is not nearly so finely flavored as Sal-zer's First of All, though it is a heavier yielder. A magnificent Carrot, very sweet, would do fine-ly for southern planters to ship north during the winter months.

FRENCH FORCING.
The earliest of all Carrots, very sweet.
EARLY SHORT HORN.
A magnificent Carrot

A magnificent Carrot coming from France, in great demand, very rich and sweet and finely Frank very rick of finely grained.

### SALZER'S MIDSUMMER CARROT.

In addition to its ripen-In addition to its ripen-ing in midsummer, it equals, if indeed it does not surpass, every other variety in shape, yield and quality. Specimens have been grown 4 inches in diameter and of the very best table quality imagin-able.

# CELERY.

# LETTUCE.

If you wish an early lettuce there is nothing better than Salzer's Earliest. This is followed by the Black Seeded Simpson and Grand Rapids Forcing. We are particularly fortunate in our medium Lettuce varihaving some of the finest sorts grown. heartily recommend same.

## SALZER'S EARLIEST LETTUCE.

This is by far the earliest Lettruce, and is grown in enormous quantities by market gardeners throughout America. It forms large loose leaves of ideal color. Extremely tender and juicy and of good quality. It is the ideal early Lettuce.

### BLACK SEEDED SIMPSON.

Both the Black and White Seeded Simpson are Lettuces of superlative quality, and grown very largely in Boston and other great markets. Our seed of both is very carefully selected.

## GRAND RAPIDS FORCING LETTUCE.

The Best Sort for Shipping.

This grand new forcing variety stands more neglect in the way of watering and ventilation, will grow greater weight on the same ground, and will stand ≤longer after ma turing thanthe

Black Seeded Simpson. It is of handsome appearance, and not apt to rot, and will keep from wilting longer while exposed for sale than any other sort.

The Onion crop is one of the most important of all market gardeners' crops. For the South we recommend especially the Crystal Wax, the Red and White Bermuda and Salzer's Prizetaker and Giant Silver King, as also the Large Red Globe, the Yellow Globe and the Southport White Globe. These are magnificent sorts and are sure to please. Full description is found in our regular spring retail catalog.

There are a great many Onions sown in the fall of the year, especially in southern and middle states. These, slightly protected with coarse straw, manure or leaves, usually come out in very fine shape in Spring, furnishing green Onions several weeks ahead of seed planted in spring.

# SALZER'S PRIZETAKER ONION.

Known the world over as the giant white Onion; 11 Onions having been grown of such a size as to fill a bushel, the largest weighing 5 lbs. 12 oz. This Onion cannot be beat for quality, for size, for richness, for flavor; in fact, it is a great money-maker for the market grandene gardener.

# THE EGYPTIAN OR PERENNIAL EARLY TOP ONION SETS.

They are from 12 to 20 days ahead of all other Onion Sets. ahead of all other Onion Sets. Protect slightly in fall and as soon as snow leaves, green Onions appear. A few quarts planted in the corner of the garden will furnish sufficient green Onions for years. When stock becomes exhausted we book order and fill in fall. By mail, pt., 20c; qt., 35c; by express: qt., 20c; pk., 90c; bu., \$2.80. express: bu., \$2.80.

# SALZER'S GIANT SILVER KING ONION.

1,200 bushels per acre—by using our new method—you can dig this fall of this Onion, if you will plant same—if climatic conditions and soil are right—and for those 1,200 bushels you are just as apt to get \$1,200 as less, as the price for Onions this fall ought to rule very high. The best giant white Onion grown.

# WINTER ONION SEED.

Something new, Originated in England, A splendid white Onion, spreadid white Onion, sown in fall, stands the winters and in early spring brings quick, fine, tender Onions.

Price, pkg., 6c; oz., 20c; ½ 1b., 60c; 1b., \$2.00.

Red Bermuda Onion.

# BERMUDA ONIONS.

The Bermuda Onions have fairly leaped into popu-The Bermuda Onions have tairly leaped into popularity in the South and are grown in enormous quantities in Texas, Louisiana, Mississippi, Florida and other southern states. They are magnificent Onions in every respect and we can heartily recommend 'same.

# RED BERMUDA ONION.

Strong grower, fine Strong grower, fine shaped, splendid shipper. Pkg., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.40, postpaid.

# WHITE BERMUDA ONION.

A very rare Onion, delicate flavor, beautiful color, fine shape, splendid shipper. Pkg., 5c; oz., 15c; ¼ 1b., 45c; 1b., \$1.50, postpaid.

## CRYSTAL WAX ONION.

The very rarest and finest of the Bermuda type of Onions. Our seed is imported and is very choice. Pkg., 10c; oz., 20c; 1/4 lb., 60c; lb., \$2.00, postpail.

Above Lettuce and Onion prices hold good until our present big supply is exhausted. After that we will fill at market prices.

# MUSKMELONS.

The earliest Muskmelon that we have is Salzer's Earliest Ripe. This is followed by the Blue Ribbon Rockyford, then Burrell's Gem, very excellent sorts, while the Extra Early Hackensack and Osage and Acme and varieties of this kind increase in popularity with each season, especially among southern planters. Burrell's planters.

# WATERMELONS.

We are particularly strong on Watermelons. For early there is nothing earlier than Salzer's Earliest and July Fourth. These are two melons that have won a place for themselves all over the United States. Then Salzer's Expansion and Oh! My! and Wisconsin Hybrid are the three best shipping melons known. There is nothing superior to them.

# PEAS.

There is more money made in peas than in any other crop and planters in the south are finding this out. With such varieties as Salzer's Scorcher, Early Alaska, La Crosse First Early, Salzer's Earliest and Best, Early May, McLean's Little Gem, Thos, Laxton, and Salzer's Earliest Dwarf Jumbo, you are always sure to double and treble your money. Indeed, an acre of peas costing you possibly \$10.00 for the seed would be a shame to return less than \$200 to \$300.

# EARLY ALASKA PEA.

Our strain is the earliest on earth of Alaska peas, splendid for ship-ping and market. We sell car load: to Texas, Florida, Louisiana and Southern States.

Pk., \$1.25; ½ bu., \$2.50; bu., \$1.60; 2½ bu., \$11.50.

## LA CROSSE FIRST EARLY PEA.

A seedling of Philadelphia First and Best. It's the earliest shipping pea we know of—wondrously prolific, wondrously early—splendid for shipping, and at our low price we expect to sell 5,000 bushels to Texas, Florida, New Orleans, North and South Carolina and other Southern markets using the early pea. Grows to height of 22 inches inches

Pk., 85e; 1/2 bu., \$1.60; bu., \$3.00; 21/2 bu., \$7,30.

# TURNIPS.

EARLY LA CROSSE.
A splendid Turnip for early use; fine shape, purple top, elegant quality, sure to please.
SALZER'S MILK GLOBE,

The greatest Turnip in existence. Grows large, but is always of rich, juicy, tender quality. A market gardener's

NEW WHITE EGG TURNIP.

A very fine Turnip, of rich
quality; our strain is superlative. Will surely give satisfaction.

# Salzer's Superior Northern-Grown Farm Seeds.

We are American Headquarters for Farm Seeds, growing more Barley, Buckwheat, Corn. Oats, Wheat, Flax, Potatoes, Grass and Clover Seeds, etc., than all Western seedsmen combined. This we do in the extreme North, owning and controlling large farms in Wisconsin, the Dakotas and other Northern points.

We have, by actual test, learned that our Seed Wheat, Barley, Corn, Grasses and Clovers, Oats and Potatoes, etc., taken from our farms and removed to Iowa, Ohio, New York, Nebraska, Kansas, Illinois and other states, increased the yield fully 50 per cent—yes, oftimes more than doubled the yields!

With the liberal support and hearty co-operation of the farmer, we shall in the future, as in the past, urge onward in the fields of new seed tests and experiments, believing that if we can get a new sort to produce two bushels where one formerly grew, we are doing the farmer a great good. Our success in this line has been signal, and the farmer stands by us, for our seeds are recognized for their superior quality the world over. We have introduced new Oats, Barley, Corn, Potatoes, Buckwheat, Rutabagas, etc., that have increased the average yield largely; yes, often doubled it!

# How Do We Ship Farm Seeds?

# BY FREIGHT.

All Farm Seeds, Potatoes and Tools, from this page on, are sent by cheap freight, customers paying charges.
In all cases we get the lowest obtainable In an cases we get the lowest obtainable freight rates for our customers, but we will use our judgment in forwarding seeds, etc., at lowest cost to our petrone. patrons.

# CHEAP FREIGHT.

The freight charges at the time of writing would be on 100 lbs., to points in

Iowa, Minnesota, Wisconsin, Illinois, Michigan, Indiana .... lissouri, Ohio, Kansas, Nebraska, the Dako-.\$0.25 to \$0.50 Indiana
Missouri, Ohio, Kansas, Nebraska, the Dakotas, about
New York, New Jersey, Pennsylvania, Connecticut, Georgia and Eastern States, about. 50 to 90
Texas, Louisiana, Florida, New Mexico, about. 80 to 1.20
California, Washington and Oregon. 1.50 to 2.50
At such low rates it will pay you to order our Northern grown, heavy-cropping seeds. They double yields and give clorious crops.

# BY EXPRESS.

It often happens that we can send by express at a slight advance of 10c to 20c on a 25-lb. package, instead of by freight. In doing this the customer gets goods quicker. In all cases we use our judgment in forwarding.

Bit

# FARM SEEDS.

The seeds on this page are usually sown in the Spring of the year. Some farmers order them in Fall to have same on and early in Spring. We give special prices on large lots. Please write us. (Sacks, 20c each extra.)

# inter irains.

Prices subject to the advance of markets. Always remit for sacks except when our 3 bus, special offer is used—on Wheat, Oats and Rye—otherwise we will deduct cost of

This variety we have not tested in Wisconsin. We purchased our stock in Missouri, with the assurance that it is largely grown there, and that it will do well in all states where winter oats flourish. We recommend that everybody give same a trial. Price, pkg., 10c; by freight, pk., 60c; bu., \$1.50; 2½ bus., \$3.65.

# Salzer's Twentieth Century Winter Rye.

We urge upon every farmer the great desirability of obtaining this rye. If sown in fall, it will make magnificent pasturage in very early spring, if not desired for grain. If desired for grain, it will yield all the way from 60 to 80 bushels per acre. It is wondrously prolific, a great stooler, hardy, a vigorous grower, while as a hay it is of the very highest quality.

We know Salzer's Twentieth Century Rye will delight, please and be profitable to you. By all means try same.

It is well known that England Scatland and Pussia gray.

we know satzer's Twentieth Century Kye will delight, please and be profitable to you. By all means try same.

It is well known that England, Scotland and Russia grow magnificent winter ryes, many varieties, but the best of all European varieties is this 20th Century Rye.

Europe at \$1.75 per bushel. We obtained a fine supply when in Europe, and last fall planted same, and are now able to offer it at a very reasonable price. For length of straw, earliness, vigor of growth and productiveness, it is unequalled by any variety in cultivation. This is the description European seedsmen give of the 20th Century Rye. We have found it in every respect AI, and as a new variety we heartily recommend everybody to give it a thorough trial. We know it will not disappoint you but surely please. It should be sown at the rate of two bushels per acre, in early fall, and whether you wish same for cutting green, or ripening, we unhesitatingly recommend it as the best that can be grown. The kernels are large, of fine color, very desirable for flour, very nutritious, and make excellent bread. excellent bread.

Price per pkg., 10c; lb., 30c; 4 lbs., \$1.00, postpaid. By freight, pk., 55c; bu., \$1.50; 2½ bus., \$3.60; 10 bus., \$14.25; sacks, 20c extra; (3 bus., sufficient for 2 acres, including sacks, \$4.60.)

# Wisconsin Winter Rye.

Rye as a main crop pays-pays big. There is no cereal that is a better money-maker, a surer money-maker, a bigger money-maker, and an easier money-maker than Wisconsin Winter Rye. You are surer of a crop of rye, providing you sow our Wisconsin Winter variety, than you are of wheat, oats, corn or potatoes, and in addition to this, the yield is

enormous, and the price is always good. No matter how you take care of it, rye always returns a paying yield. It is a great stooler, of strong straw, long ears, early habits and easy to harvest. It is a crop that year in and year out, in good season or in bad season, will pay you better than most anything else. The price is seldom below 50c to 60c a bushel, while the yield rarely falls below 40 bushels to 50 bushels per acre.

Winter Rye as a Fodder or Fertilizer.

In our county there is a trio of Hollanders, growing 60 acres of potatoes annually. They are on sandy land. Their crop was always fine. It never failed them; rain or shine, they had potatoes to sell. We looked them up, and found rye—winter rye—to be the secret. The 60 acres were fall plowed and sown to rye. Rye grows so quickly that long before time to plant potatoes it was from one to two feet tall. This was plowed under and sherein the potatoes were planted, and such yields. In addition to being a great fertilizer, they would let their sheep and cattle graze, and cattle like nothing better than rye, winter rye.

PRICE OF WISCONSIN WINTER RYE.

Pkg., 10c; lb., 30c; 4 lbs., \$1.00, postpaid; by freight, pk., 50c; bu., \$1.40; 2½ bus., \$3.40; 10 bus., \$13.00; 20 bus., \$25.00; sacks, 20c each. (3 bus., sufficient for 2 acres, including sacks, \$4.35.)

Write for Special Prices if wanted in large lots. Make out your list and let us estimate on same.

Wisconsin Winter Rye.

# WINTER WHEAT.

We also have small stocks of Harvest King Winter Wheat, Fultz Winter Wheat; Kharkoff Winter Wheat and Early Red Clawson Winter Wheat at: Pk., 70c; ½ bu., \$1.00; bu., \$1.90; 2½ bus., \$4.60; 3 bus., \$5.75; 10 bus., \$18.00.

25 You owe it to Mr. Patten and the other fellows, that good winter wheat seed is so high this year.

Always remit for sacks, except when our 3 bu, special offer is used—for wheat, oats and rye—otherwise we deduct cost of sacks from the order. We charge 30c each for sacks.

# Salzer's Advance Winter Wheat.

We wish we had 100,000 bushels of this new wheat marvel. 100,000 bushels would bardly go around among our customers if they once saw it growing. It is one of those rare new things that one never can get enough of, and our crop this year amounts to but 1,000 bushels, so that you will have to order early to get a start with this premium winner. It is truly a great wheat, an advance in quality, productiveness, hardiness, yield, stooling propensities, vigor, resisting disease over almost every variety known to us today.

We know it is an advance, for during the past winter out of a plot of over 75 different varieties of winter wheat tested, this was the hardiest, proving itself the strongest grower, the freest from disease and by all odds the heaviest yielder.

We do not wish to say what the yield of this will be per acre, but we are sure it will astonish you and please you, and we know that if you will try 2½ bushels or 5 bushels (no more than 5 bushels sold to any one party except by special arrangement) you will be more than pleased with the results.

# It Is a Beardless Variety.

That is worth a great deal, as nine out of ten farmers will not sow a bearded wheat variety, although the bearded wheat varieties as a rule are stronger, with heavier berries, but Salzer's Advance can show them a thing or two when it comes to healthfulness, stooling and yield! Its strong, even, upright growth, fine, magnificent milling qualities, large, noble, beardless heads, plump, solid, big grain, and almost fly-proof and rust-proof and disease-proof, is a thing worth millions in a new wheat. We are sure this variety will please you.

# GOOD REPORTS.

This catalogue goes to press May 15th, 1909, nearly sixty days before any winter wheat is harvested, but we are getting scores of glowing letters from customers who sowed three bushels last fall of Salzer's Advance Winter Wheat. One and all tell us of the wonderful way it passed the winter and the splendid outlook for a tremendous crop!

# PRICE OF SALZER'S ADVANCE WINTER WHEAT.

Price lb., postpaid, 30c; 3 lbs., 75c. Price by freight, pk., 75c; ½ bu., \$1.50; bu., \$2.50; 2½ bus., \$6.00; 5 bus., \$11.75. Sacks, each, 20c extra. (3 bus., sufficient to sow two acres, including sack, \$7.40.)

P. S. Our stock of this is only 1,000 bus., hence we cannot let anyone have over 5 bus. unless by special arrangement.

# THE HARDY NORTHERN.

# BEARDED WHEAT.

Many farmers do not like a bearded wheat; but, then, again there are thousands of old-fashioned farmers whose early fortunes were made in bearded wheat, that are tying to the new varieties of bearded winter wheat, and to them we want to commend most heartily our Hardy Northern Wheat. That is a wheat to tie to.

Sow liberally, and you will surely make money.

We wish that we had 25,000 bushels of this magnificent bearded winter wheat, a wheat that is pronounced one of the very best winter wheats in the country to-day. It is a variety full of new blood, new vigor and tremendous producing qualities, and we are satisfied that every farmer giving it a trial will be more than delighted and pleased with same. Our stock of same is not over large, and we urge farmers who wish a good thing to order early. We do not see how our great Winter Wheat varieties, namely: 1, Hardy Northern; 2, Salzer's Prizetaker; 3, Salzer's Advance and 4, Salzer's Renowned Red Cross Winter Wheat, can be improved in any way, shape or manner, although we are annually selecting and reselecting and perfecting with great care in order to produce the very best in the Winter-Wheat line. Our seed we believe to be the best and choicest and highest grade offered in the country. We know that when you once plant our seed, you will want no other. Now, in this Hardy Northern you will find a remarkable stooler, with very large, long, broad, deep, heavy heads, filled with solid kernels of grain, of a rich bronze shade, extremely productive, of excellent quality, and the delight of the farmer, and we urge you to give this bearded variety a trial.

Price, pkg., 10c; 1 lb., by mail, 25c; 4 lbs., \$1.00; by freight,  $\frac{1}{2}$  bu., \$1.00; 1 bu., \$1.90;  $\frac{2}{2}$  bus., \$4.60; 10 bus., \$18.00. (Sacks, 20c each.) 3 bus., sufficient for two acres (including sack), \$5.75.

In ordering wheat (except the 3 bushel special offer), it is understood, if you do not remit for sacks, that you wish us to deduct the cost of the sacks (20c each) from the order.

Send 4c, for postage and packing and receive free samples of Winter Wheat and Winter Rye.

# SALZER'S RED CROSS of the NORTH WINTER

Biographers tell us that it takes a century to produce a great man, a statesman, an author, a reformer or in-tor. This is equally true of a new cereal, unless by chance you discover a seedling upon which nature possibly as labored for years.

In June, 1893, we were urged by a farmer customer to come and inspect a new winter wheat which he had. As he had no sample left, we hesitated undertaking the journey. He urged us again, stating that it was worth going to Europe for; that if we were not satisfied with the growing wheat, he'd pay the expenses. Then we reasoned: That farmer has confidence in his wheat; it must be something ahead of the average; it must be something extraordinary. We went, we inspected, we were captivated. We bought the crop before leaving the farm, paying over \$2.000. Now it's nothing unusual, this transaction, for us. It occurs frequently. We do not hesitate paying \$20 or \$30 a bushel for a new wheat, or corn, or potato, if it has merit. Why, we have growing now thirty bushels of oats which cost us over \$900—\$1.00 a pound. That illustrates our point—no matter what a new cereal, or potato, or seed costs, we must have it for our customers if it really is good, has merit, and will prove a blessing and benefit to our customers. When our house was founded by the late John A. Salzer it was just as much our aim to do good by disseminating good seed and prove a blessing to customers as to make money. Both these objects went hand in hand, and we have honestly striven in our long years of business to firmly adhere to these principles.

Where and how did you obtain this wheat?' we asked, and here give Mr. J. Barron's statement: "Six years ago I revisited my home in Scotland, and brought back a few pounds of a newly introduced wheat that was then creating a great sensation, owing to its great yield. I already had two other sorts—one a baid and the other a bearded—and conceived the idea of crossing the three in order to transplant into the Scotch variety the hardiness and color of our American sorts. The result is what you see—a stiff, straight-growing, hardy, vigorous variety, with a yield doubling any American variety ever tried or heard of. In Scotland I was told that repeated tests gave to this wheat a yield of 60 bushels per acre, and th Now, Mr. Farmer.

"Caesar's Ghost! I have followed threshing for over 30 years in Indiana, Illinois, Ohio and Wisconsin, those wonderful winter wheat states, but never in my life have I seen anything like this field of Salzer's Red Cross Winter Wheat, which I am threshing today for Mr. Farmer Wideawake. It surely will yield over 50 bushels per acre. This beats everything! I verily believe that in less than ten years the Salzer Seed Co. will introduce a wheat that will produce over a HUNDRED BUSHELS per acre. I understand that their new Prize Taker Wheat comes year near that already account of the ruinous situation, and no snow all winter, it is now heavily stooled, and we expect 900 bushels from the farm manager thinks it will go 30 bushels. He says Salzer's Red Cross of the North goes in to win, and it wins, rain, shine, good or bad weather. It's the greatest yielder on general acreage ever seen or grown here.

| Mrs. Mary Kerr, of Brown Co., O., writes: "The 2 bus, of Red Cross Wheat purchased from you have grown beyond all expected."

rom you have grown beyond ll expectation. It is a sight from you have stand all expectation. It is a sight worth seeing. I never saw anything to beat it. Expect to harvest it in 6 days from today. Every farmer who has seen it wants seed. It will surely crop wants seed. It v 80 bus, per acre.

Red Cross

LET'S TALK BUSINESS, MR. FARMER!

There is absolutely no risk in sowing Red Cross Winter Wheat, and big money can be made out of it by wide-awake farmers. Why is it that some farmers will not keep up with the times? Why are they always content with the skimmed milk? Or. in other words, they will not buy a good thing when it is new, but will wait until it is half worn out and then take hold of it. This class of farmays from today, who has seen it will surely crop to the crop is assured. On the other hand, sow a poor variety of seed, starve out your land, and the best season God ever sent will not fill your granary; such farming will make you a slave all your active life and prepare you for a miserable old age. Be wise and keep well ahead in the race. Be a leader if you can, but never be entirely in the rear. Think, plan, act. You can commence this year by sowing good varieties of wheat. With good management you can sell the crop at an advance on market price. With good management you can sell the crop at an advance on market price. With good management you can sell the crop at an advance on market price. With good management you can sell the crop at an advance on market price. This is one way to make farming pay, and Salzer's new varieties originated to keep something going at a good price all the time. This is one way to make farming pay, and Salzer's new varieties are always sure to pay you. Just think of the thousands of dollars farmers have made throughout the United States on Salzer's corn sorts, on his oats, wheat, barley, potatoes, etc., etc., etc., When Salzer offers a new variety of wheat, of grain, or potato, you can always bank on same, for it is "Morked."

Than Good," as a pleased farmer expresses it. Why, Red Cross Winter Wheat is so strong, so vigorous a variety, so heavy it must surely pay you.

a yielder, that it must surely pay you. LET US REASON TOGETHER.

Suppose you planted 10 acres of Red Cross and 10 acres common winter wheat, like you usually sow. See the results: ......360 bushels. 10 acres Red Cross Wheat yield, say about....
10 acres common winter wheat (a big one, too) .160 bushels.

Although introduced more than 15 years ago, we have never succeeded in getting a surplus, so heavy is the demand for Red Cross Wheat for Seed. 🖘

Send 4c for postage and packing and receive free samples of Winter Wheat and Winter Rye.

Red Cross

Red Cross

# POINTS IN FAVOR OF RED CROSS WINTER WHEAT.

First—Earliness. This is absolutely one of the earliest winter wheats grown. Our crop was ripe, cut and stacked before other sorts

Second—Never Winter-kills. Only one win-er, during a period of 12 years, Red Cross uffered some by frosts. But that winter ter, during a period of 12 years, Red Cross suffered some by frosts. But that winter was the toughest we ever had. Ordinarily it never winter-kills.

Third—It is bug-proof. This wheat, more than any other variets, laughs at bugs and stones are the varieties succumb to the ravages of insects. During the past four years we have never seen it succumb to insects.

Fourth—Withstands Drought. No sort that we have ever tested so thoroughly and completely withstands dry weather, yes, long, continuous hot droughts, as Red Cross; indeed, it seems to be proof against every element of nature in the shape of weather, withstanding all, and always yielding heavily.

Fifth—Strong Straw. Now, then, Red Cross Winter Wheat has wonderfully stiff straw, withstanding severe winds to a marked degree, and coming forth after storms standing straight, erect, a pleasurable sight to behold. When other sorts lodge badly this stands up like a strong wall.

wall.

Sixth—Yield. 60 bushels per acre—the yield is all the way from 30 to 60 bushels per acre, but we honestly believe that 60, 70, yes, up to 80 bushels or more can be grown per acre under careful cultivation; at least, we would risk this sort as quickly as any variety we know of to produce the greatest number of bushels of winter wheat of any sort grown.

Seventh—Color. The color is beautiful, and the wheat sells readily in the market. We will gladly mail samples before buying, if you desire.

Seventh—Color. The color is beautiful, and the wheat sells readily in the market. We will gladly mail samples before buying, if you desire.

Eighth—Quality. No winter wheat exceeds this in its excellent quality, and it has that advantage that it will make more and better flour than any known winter wheat at the present day, with possibly the winter Fife varieties excepted. All nallers who have seen it pronounce it excellent in the extreme.

# \$300 in Gold for 80 Bushels per Acre.

\$300 in Gold for 80 Bushels per Acre.

We offer this year \$300.00 in prizes for the largest yield of 80 bushels or over for 1910. Thus, the farmer raising the highest number of bushels of Salzer's Red Cross over 80 bushels per acre gets \$150.00; second highest, \$100.00, third highest, \$50.00, or a total of \$300.00. If the highest yield is 80 bushels, the farmer gets \$150.00, but it must reach or exceed 80 bushels.

Now, we have unlimited faith in this wheat as the grandest, heaviest yielding, healthiest, surest cropping variety of winter wheat grown. We believe there is nothing like it in America for yield. We believe there is nothing like it in America for quality, and we believe there is nothing like it that will give you more pleasure and more profit, and we also believe that, if of any variety of wheat, 80 to 100 bushels per acre can be grown, it is of this variety. Indeed, a great many of our farmer friends believe that they can grow 100 bushels of this sort and are going to try for it this Fall, and we wish you to make the test with them, and with this in view we offer \$300.00 in gold to the party growing 80 bushels of Red Cross Winter Wheat per acre. The only requirement we make is that you buy of us this fall one or more bushels Red Cross Winter Wheat, produce the yield, and have the same signed and sworn to by two witnesses, and the money will be sent you December, 1910. If several report the same yield, we will divide the amount equally among them.

Now, then, here is your chance, for the farmer producing 80 to 100 bushels winter wheat per acre will be recognized as a public benefactor. What a stupendous revolution that will make in wheat growing! Now, some one can produce this yield. Why not you! It certainly is possible, and if it is possible with any sort it is possible with the Red Cross Winter Wheat, and we hope thousands of farmers throughout America will make the test this year. We shall publish the name of the prize winner, and will give him a tremendous sendoff, with a biographical sketch, th

# 80 or 100 Bushels Winter Wheat per Acre

is worthy of a biography as elaborate as that of Abraham Lincoln or General Grant, because he will become a benefactor to the race by adding to the wealth of the farming class millions upon millions of dollars annually.

Ninth—Profit. Now, then, here is a wheat that makes profitable farming absolutely certain in any state where winter wheat will grow, from Maine to California, and south to the Guif and north through the Canadas. This wheat, if sown, will insure profitable farming. It yields from 5 to 30 bushels more per acre than any of the common varieties, which will ten times pay the cost of the seed. the seed.

Tenth—Quick Returns. That's what you get by sowing this wheat, for the crop will go like wild-fire. Every neighbor ought to buy it for seed.

go like whithere. Every neighbor ought to buy it for seed.

Eleventh—A Hybrid, We do not claim our Red Gross as absolutely pure, that is, all grains alike, because is a Hybrid, and occasionally a bearded ear appears a one unlike the Red Cross. This is no objection whatsoever, for it makes the heaviest yield known possible. Indeed, for many years, when big yields were desired, we always preferred a slightly mixed wheat—it yields the most.

Twelfth—The Last Ten Bushels. It is the last ten bushels per acre that makes farming profitable. If the common sort yields 20 bushels per acre, and this gave you 30 bushels, the last ten bushels would be the profit, but if this gave you 50 bushels, it is very easy to figure up great profits on 100 acres or more.

Thirteenth—A Great Future. This wheat is bound to have a great future, bound to become popular, bound to be largely grown the world over. Why, we have orders for same from our many customers in Europe, England, Corea, Japan and the South American states, in addition to thousands from every county in America where winter wheat grows.

wheat grows.

wheat grows.

Fourteenth—Be in the Swim. Get our new wheat sorts; the prices are low, and next year sell to your neighbors for seed. That's the way to make money.

Fifteenth—When it is known in your county that you buy the newest wheat, oats, rye, barley, clovers, grasses and potatoes—when farmers know that you have Salzer's Seeds, you will sell lots of them. Only one farmer in ten orders seeds from seedsmen. Now, then, "DO YOU BE THAT ONE."

Sixteenth—In Wisconsin Red Cross proved to be the grandest, heaviest yielding, storm and frost resisting winter wheat of all.

# Red Cross Will Pay Your Mortgage.

Have you a mortgage on your farm? Well, sow Red Cross Winter Wheat and sow a plenty, and sell the product to your neighbors for seed. You will always get from 50c to \$1.00 a bushel more, and at this rate your mortgage will dwindle, and when due be met by money made from Red Cross Winter Wheat.

# A Cure for Hard Times.

The farmer reading the above description, together with the testimonials and strong points in favor of Red Cross Winter Wheat, must see in it a solution for hard times. No hard times can exist when the farmer gets two or three times as much from an acre as ordinarily. Thus, if your wheat produced you but 15 bushels per acre, and Salzer's Red Cross would give you 30 to 45 bushels per acre, ON 100 ACRES THERE WOULD BE A DIFFERENCE OF 3,000 BUSHELS, which would kill hard times in a hurry. Why not try it this fall by seeding heavily to Salzer's Red Cross and other winter wheat sorts? It is a wonderful wheat, and we believe as high as 70, YES, AS MUCH AS 80 BUSHELS PER ACRE CAN BE GROWN FROM THIS WHEAT WITH CAREFUL CULTIVATION. Read Mrs. Mary Kerr's letter.

10 bus. increase on 100 acres equals 1,000 bus.; 30 bus. increase, means  $3{,}000$  bus.

# Do You Farm for Profit?

If you do, and want to make lots of money, then plant a plenty of Red Cross Winter Wheat, of our Winter Rye, and our Grasses. There is lots and lots of money to be made in these. Do try them this fall. Sow now. Order quick. Winter Wheat seed—that is, good, A No. 1 Northern grown—is scarce. Of course you can get plenty of cheap Indiana or Southern seed, but do you want that as a gift if the coming winter is cold and bard? No! Then you need strong, vigorous, frost and element withstanding wheat from the far North!

Try It This Fall!

Red Cross

# PRICE OF SALZER'S RED CROSS WINTER WHEAT.

Now, we wish to give this wheat the widest possible distribution. We should like to see it planted on every farm where winter wheat can grow in America. We know that every farmer who will plant same will be delighted with the results. It cannot be otherwise. The yield always has been enormous, and in order to make it an inducement for every farmer to plant same, as also to induce his neighbor to plant a few acres, we have placed the price very, very low. If it is worth a cent, it is worth \$5.00 a bushel, but we make our price low so you will give it a thorough trial. Now, we strongly urge farmers to club together and order 20 bushels or more and get it at \$1.371/2 a bushel.

Pkg., 10c; lb., postpaid, 30c; 4 lbs., \$1.00; by freight, peck, 60c; bu., \$2.00; 2½ bus., \$4.75; 10 bus., \$18.50; 20 bus., \$36.50; 100 bus., \$180.00 net. 2½ bus. sack, 20c each extra. 3 bus., sufficient seed for two acres, including sacks, \$5.85,

WRITE US FOR SPECIAL PRICES ON YOUR WANTS; MAKE OUT A LIST AND WE WILL GIVE YOU WHOLESALE PRICES IN LARGE LOTS. .

# SALZER'S PRIZETAKER WINTER WHEAT.

No wheat that we have offered in the past ten years, with the exception of the Canadian Hybrid and Salzer's Red Cross Winter Wheat, has so completely captivated the farmers as Salzer's Prizetaker. The reason is apparent. Though of a white color, it is so enormously productive, so healthy and strong, so fine a stooler, and so hard and difficult to winter kill, that it will not only please, but bring big profits to each and every farmer growing same.

Now, we know that this wheat will please. It is accustomed to big yields. It does not give a "baby" yield—but a big, rousing, giant crop—such as 40, 50, 60 and 70 bushels per acre. The kernels are beautiful, are large and full; it's

a wheat to buy. Now, do try it for the coming season. You will surely be delighted with it.

When this wonderful wheat has been exhibited, no matter whether at a Country or State or National Fair, it always captures the prize. There is a reason for it. There is no berry so large and plump and fine and heavy and of superior quality and chaste elegance as Salzer's Prizetaker Winter Wheat berry. It is a wheat that cannot fail to attract, and is without doubt the finest white wheat grown, and is in tremendous demand by manufacturers of cereal foods as well as millers. We know that Salzer's Prizetaker Wheat, owing to its sturdy habits, its element resisting qualities, will be-to you a great money-maker. We have sold of this wheat thousands of bushels the past ten years and every year our stock has run out, the demand having been greater than the supply. We think this year that we have sufficient for all demands.

Salzer's Prizetaker Winter Wheat.

Its kernels in ordinary wheat years are large, full, extra heavy, often weighing as much as 66 lbs. per measured bushel; it is an early wheat, strong straw, bald hybrid variety. It was obtained by crossing and selecting, until this new sort stands at the head of all white bald winter wheats. Our farm manager reports a test of 131 bushels on two acres, or a trifle over 65 bushels per acre. Now this yield very surely can be had by anyone. We know of no wheat that is handsomer and that will give greater satisfaction than this. It is a fine wheat for flour, and makes most excellent, nutritious flour, and will surely please.

Salzer's Prizetaker is a Money-Maker Winter Wheat.

The price of this wheat we have placed very low; it ought to be \$25.00 per bushel, it is worth it; yes, it is worth more than this, for it demonstrates to you how to make money by sowing this wheat; even if you receive only 40c per bushel for your crop, you'll still make money, as Prizetaker is so heavy a cropper; and we hope that every farmer will give it a trial. We shall be glad to mail you a large sample package of same for 10c. We hope that farmers will club together and purchase 20 bushels or more of this wheat, so as to have this variety to offer next year to their neighbors at a fancy price for seed.

Price of Salzer's Prizetaker White Winter Wheat.

Pkg., 10c; 1 lb. by mail, 25c; 4 lbs., \$1.00; by freight or express,  $\frac{1}{2}$  bu., \$1.25; 1 bu., \$2.20; 2½ bus., \$5.25; 10 bus., \$20.00; 20 bus., \$39.00; 100 bus., \$192.50; ( $\frac{21}{2}$  bu. sacks, 20c each extra.) 3 bus., sufficient for two acres (including sack), \$6.75.

# WINTER OATS.

We offered a carload of same last fall and it was eagerly taken by our customers throughout the winter wheat growing states, even in the far North and Dakota.

There is considerable call for a winter oat. This call comes from all winter wheat growing states. Well, we have it. We bought a carload from a grower in Missouri. Like all seeds we are obliged to buy, it is not nearly as handsome as our own growth would be, but he assures us it's a big, heavy, extra fine yielder. It is of yellowish color, with some black oats. We would, from appearance, say it can yield 60 bushels per acre. We are satisfied if you wish winter oats, this is the lot to try. We shall sow 40 acres of it this fall. Our winter oat crop was not as successful in Wisconsin as in states farther south, as winter oats are not yet thoroughly acclimated to the rigor of Wisconsin and Minnesota climate, but we would recommend that all farmers give same a trial. Last winter turf oats were grown with good success in Tennessee, Kentucky, Southern Indiana, Ohio, Missouri and other states, and we believe that this variety will give greater results and perfect satisfaction. The price is very low for a winter oat. Sow one and one-half to two bushels per acre. Price, postpaid, pkg. 10c; lb., 25c; by freight, pk., 40c; bu., \$1.50; 2½ bus., \$3.50; 10 bus., \$13.50. Sacks, 20c each. 3 bus., sufficient seed for two acres, including sacks, \$4.60.

# Salzer's Superior Grass and Clover Seeds.

(Write us for Special Wholesale Prices on Clovers, Timothy, etc., if desired in Large Lots, stating Quantity desired.)

Grass (and Clovers included of course) is king, for no other product of the land returns such continual paying yields, as the meadows and the pastures. We warrant our Grass and Clover Seeds to be of unusually strong and vigocous vitality. Should stocks become exhausted we will fill at market price.

# The Honest Truth About Grades.

Orchard Grass

Northern Grown Timothy. The Best on Earth.

# SALZER'S RED OR JUNE CLOVER.

Salzer's Superior Strain of Clover Seed is known all over America as the most wondrously vigorous and prolific in culture. It certainly beats St. Louis, Chicago and Eastern Clover in yield, vigor, foliage and rich food matter from 30 to 50 per cent.

WHY IS SALZER'S CLOVER SO SUPERIOR?

WHY IS SALZER'S CLOVER SO SUPERIOR?

The answer is given by ex-Gov. F. A. Hoffman, of Illinois, in a few words. He says: "Out of repeated tests made with Salzer's Superior Brand of Red or June Clover, never less than 98 kernels out of 100 grew; that is why I sow only Salzer's Grass and Clover Needs."

Now, that is the experience of thousands and thousands of our customers all over America, and they write us that they would rather pay a little more for our Superior Northern-Grown Seed and know that every kernel will grow, than to get inferior seeds from seedsmen who are not growers, and who, as a rule, buy from commission merchants who buy up anything and everything that is offered. Now our seed is carefully grown in the extreme North, is vigorous, sprouts and grows!

Our Clover Seed, being grown by us with great care in the far North, is worth \$1.00 to \$2.00 a bushelemore than Chicago, Toledo, 8t. Louis, Minneapolis or Eastern seed for big yields.

Hon. H. F. Hunter, of S. Dakota, says: "Clover is not all alike, as some seem to think. I'd rather pay \$15.00 a bushel for Salzer's Superior Red Clover than buy of some seedsmen and stores at \$3.00 a bushel. My experience in farming proves that Salzer's Clover Seeds all grow and double other yields. I use Nitro-Culture, too."

# B ALSIKE CLOVER.

With one leap, with one bound, Salzer's B Alsike has become popular, immensely popular? Our sales of B Alsike the past season were 80 times more than the year before? That tells the story. This B Alsike has reason back of it for its tremendous popularity. B Alsike is grown right here on the celebrated Cloverlane Farm for seed, contains some Timothy, as the two, Alsike and Timothy, do so magnificently together. If you do not plan to grow for seed only, then the B will give you splendid satisfaction, and is much lower in price; indeed, it is now being sown in great quantities almost to the exclusion of superior seed, owing to its very low price. B Alsike is bound to please you; its luxuriant growth, its splendid adaptability to produce its best with a sprinkling of Timothy; its marvelous producing powers make B Alsike profitable to sow! The John A. Salzer Seed Co. sow! The John A.

# SALZER'S WHITE DUTCH CLOVER.

20th Century

White Dutch.

WHITE DUTCH CLOVER.

A low, close-growing Clover, round white heads; very fragrant; best adapted to moist soils, but does well on dry land; excellent for sowing with Blue Grass for pasture and lawn purposes. Sow in spring. Our seed is the hardy northern variety and very prolific. Never winter-kills here! For lawns it is splendidly adapted; indeed, no lawn is considered "quite right" unless it contains a good sprinkling of this sweet. Dure white blooming, low-growing, "soft is velvet," hardy White Dutch Clover, 14 of a pound, costing 20c, postpaid, of our 20th Century White Clover will be sufficient to sprinkle upon a lawn 20x 500 feet.

# GIANT INCARNAT or German Mammoth Clover.

This clover is a careful selection and marked improvement on the Common Crimson Clover, so much used in Maryland. Delaware. Connecticut. Pennsy! New Jersey, vania and other Eastern states. Here in cold Wisconsin it is an annual.

Sown in August, it brings a good crop the same fall! It takes but eight weeks to mature. In Delaware and Eastern states it lives over easily and does not suffer from their winters there. Here in Wisconsin it seldom lives over.

The Common Crimson Clover is the same as you buy in Delaware and the East.

### CULTURE OF ALFALFA.

Full culture directions as how to grow Salzer's Northern Grown Alfalfa in every state in the United States are sent with each order for 1 peck or more seed. This little pamphlet is worth \$100 to each farmer sowing Alfalfa!

Glory enough! Ring the bells! Shout for joy! The year of jubilee has come! How's that? Why, sir, it is now possible to grow Alfalfa Clover in every state of the Union, North, South. East or West—why, sir, cold Minnesota, and freezing Wisconsin, and treeless Nebraska, and the prairies of Illinois and lowa, and the bottoms of Indiana, and the pineless soil of Michigan, and the rich farms of New York and Pennsylvania—yes, every state can grow from two to four crops of Alfalfa if Salzer's Northern Alfalfa seed is used! That's acclimated, that's hardy, that's tough, and we believe tougher and better than the Turkostan Alfalfa!

A grand Clover—The eternal Clover of Europe and Mexico. Our attention thereto was first attracted in 1885, by a large patch near La Crosse, holding its own through an unusually cold winter and spreading rapidly. Since then we have sold enough seed in Iowa, Wisconsin, Illinois. Minnesota, Missouri, Nebraska, Kansas, Indiana, Michigan, Ohio, Pennsylvania, New York and other parts to sow 500,000 acres, and have the first complaint to hear on same.

# WHAT ALFALFA WILL DO FOR YOU.

First: As a fertilizer, it sends its roots 10 to 20 ft. after moisture and nourishment, and these in turn decay and wondrously enrich the soil.

Second: Stands drought. It makes the desert bloom as the rose, growing under the most

Second: Stands drought. It makes the desert bloom as the rose, growing under the most adverse dry or hot conditions.

Third: Stands wet equally as well, and returning bountiful yields in Wisconsin, Minnesota, Pennsylvania and every other state.

Fourth: It is early. It is fit to pasture as soon as the sun is over the ground. The first cut is ready in May, the second in July, and the third in August.

Fifth: It is nourishing. No clover furnishes more rich nourishment to the cattle than this. Sixth: Grows everywhere. It will grow wherever corn or oats will hourish. Seventh: Yields enormously. It will yield in every state in the Union, if properly taken care of, from five to ten tons per acre.

## TESTIMONIALS.

John A. Salzer Seed Co. Bowling Green Kv

John A. Salzer Seed Co.

Bowling Green, Ky., Aug. 31st.

Gentlemen: I bought some Alfalfa Seed of you a year ago last spring. I made a great success
of it. I have already cut three crops this summer. It does splendidly on limestone soit. I intend
to sow this fall on wheat five or more bushels of Alfalfa. Truly yours, L. Schujahn.

Carl G. Kleinstueck, Saxonia Farm, Mich., has this to say: 'I have a patch of Salzer's Alfalfa Clover that I seeded thirteen years ago, which yielded four big crops last year, besides
good fall pasture. It has been cut three times already this season, and the fourth crop is about
6 inches high today, and will be ready for mowing in less than three weeks."

R. A. Moore, Professor of Agronomy, of the College of Agriculture, University of Wisconsin,
has this magnificent testimonial on Salzer's Northern-Grom Alfalfa Clover: "From several
tests made from Alfalfa Clover seed ordered by the Experiment Station last year from you we
found that we got an average germination test of 99 per cent. This we considered exceptionally good.

R. A. MOORE." R. A. MOORE. ally good. Sincerely yours,

### NORTHERN GROWN ALFALFA SEED.

NORTHERN GROWN ALFALFA SEED.

You may be able to buy Alfalfa from your merchant in your town, or from seedsmen in New York, or Chicago, or St. Paul, or Minneapolis, or Des Moines, or Rockford, or elsewhere at a lower price than Salzer's Superior Nothern Grown Alfalfa, but let me tell you, my friend, that our seed, when it comes to vigor and hardiness and yield, is worth \$5.00 a bushel more than any Utah or Kansas or Western seed offered by the other seedsmen.

We are the only growers of Alfalfa Clover seed in the North. Ours is pedigree stock, the kind that will stand the rigorous cold of Wisconsin winters, the kind that lasts at 40 degrees below zero and comes out in spring to gladden the hearts of the farmer and make happy his stock.

# BROMUS INERMIS.

Drought defying, frost resisting, yields enormous crops of splendid hay and affords early and abundant pasturage. It adapts itself to almost every condition of soil and climate, and to any use to which grass may be put, equaling in quality and rivaling in yield almost every other grass. It is not an experiment. It is a thoroughly established success.

Salzer's grades of this magnificent grass are unequaled for purity and high germination, and less seed of it is required to the acre, than of any other grade. From good seed, good crops grow.

Mr. J. H. Shepard, Professor of Agriculture, Agricultural College, Fargo, N. D., says: "As pasturage it is preferred to timothy by the cattle, as shown by a trial, where it was fed off more closely than timothy in the same pasture. It has the advantage of being early and being green until late in the fall. The fact that the Bromus Inermis resists drought better than other cultivated grasses, greatly adds to its value in the Northwest. The eagerness with which it is sought by stock leads me to believe that it is of as much value as timothy for hay and pasturage, and that the hay is as valuable, ton for ton."

We consider the College Grade absolutely the finest Bromus Inermis seed ever offered.

# PERFECT BALANCED RATION SEED.

The dairyman and farmer is looking for a perfect balanced ration. Here you have it! Sow 12½ lbs Bromus Inermis with 12½ lbs, of Salzer's Northern-Grown Alfalfa—together 25 lbs.—this fall. If sown this fall, this mixture should give you a rousing perfect balance pasture in 1910. Price of Perfect Balanced Ratior mixture, per 20 lbs., \$3.00; per 50 lbs., \$7.40; per 100 lbs., \$44.50.

## SERADELLA.

In Europe this is considered one of the most important hay plants for good, light soils. Its nutritive value is considered equal to that of Red Clover, while its yield is larger. It gives good results, except on land that is too heavy or too poor. On very light land it is considered best to sow it with Sheep's Fescue. Cattle like it, either as hay or green fodder. It is usually sown in the spring either alone at the rate of 35 lbs, per acre or under cover of oats, wheat or rye, when 20 lbs, are used and furnishes, after the removal of the crop, a good cutting or pasturage. Sow this fall before November 10th. Pkg., 5e; lb., by mail, 25e; by freight, 10 lbs., \$1.00; 100 lbs., \$8.50.

SAINFOIN OR ESPARCETTE FOR SANDY, SUNNY SOILS.

We cannot speak in too strong words of praise in favor of Esparcette or Sainfoin Clover, as this plant produces such a superabundance of herbage, such a large quantity of excellent hay, and so good a quality of pasture, that we heartily indorse same. Much used in Europe where there are many parts in which a farmer could not pay his rent without the use of this Clover, as it makes the poorest, sandiest land yield heavily the second year. It can be sown with Barley. It thrives on dry, chalky, sandy soil. Sow this fall.

Geo. Wilde, Mo. "I bought 100 lbs. Esparcette and cut 8 tons magnificent hay."

Emil Berg, Jowa. "Would not part with

I'e Esparcette. It's splendid for cattle.

# SPELTZ OR EMMER.

5e: 1b...

Introduced by our firm from Russia. Professor Shepard of the South Dakota Experiment Station states:

ment Station states:
"It is readily eaten by all kinds of stock and has shown itself to be especially adapted when fed to milch cows. It is better to mix it, however, with bran and shorts, as it is a pretty heavy feed when fed alone. As a swine feed, we think very well of it indeed, especially for breed sows.
"Horses do well on it, but I do not think it is equal to oats in that case. Its most striking value is found in the fact of its drouth-resisting qualities."

resists drouth; Ripens early.

It thrives on poor lands, in stony ground, in forest-regions, on the prairies; Yields more than oats; Yields more than wheat; Yields more than barley;

Makes better feed than barley; Makes better feed than oats;

Makes excellent flour; Makes good bread;

The straw is fine for fattening stock; The stubble makes excellent fertilizer; Stock is very fond of grain and straw.

# CULTURE OF SPELTZ.

The culture of Speltz is simplicity itself. It's just as say as sowing oats or corn. Prepare your land as you would for wheat or oats, and sow at the rate of 75 to 100 lbs. per acre. In the green state it makes an excellent pasture. Cut when the grain is past the middle stages of milk, when it will make splendid grain and lots of straw hay of excellent quality. Thresh like wheat, only not so closely. The hull and kernel can then be fed or first ground.

In Germany, Russia, France and with us in Michigan, Texas, Kansas and the Southland we understand Speltz does equally as well in the fall of the year as sown in the spring. If sown this fall, treat just the same as you would winter wheat sowing at the rate of 75 to 100 lbs. per acre. You will find it the most wonderful productive cereal that you have ever grown. It is rich in all qualities needed so much and sought by the farmer. We know it will please you. Sow same any time before October 25th, so as to give it a chance to come up and sink its roots before snow.

Price of Speltz this fall, by mail: Lb., 25c; 3 lbs., 60c; by freight, lb., 10c; 50 lbs., \$1.90; 100 lbs., \$2.90.

# DWARF VICTORIA RAPE.

DWARF VICTORIA RAPE.

Glory enough! Sound the trumpet, clash the cymbals! Shout for joy, clap your hands, break forth in loud hurrahs! Sheep raising right here in Wisconsin is now just as possible and just as profitable as in any state in the Union—yes, as in any place on earth. What do you say," I hear a doubting farmer remark; yes, we repeat it again, so you may surely get the full importance of this grand truth: Sheep raising can now be as profitably conducted in Wisconsin as in any place on earth! How? Four things have done it, and the Salzer Seed Co. did it!

First, Dwarf Victoria Rape; second, Bromus Inermis; third, Salzer's Speltz, the great grain food; fourth, Bismark Hog Food Pea. These are the four plants that make it absolutely sure and possible to grow sheep as successfully in Wisconsin or any other state as anywhere on earth, and the Salzer Seed Co, are the introducers of all four of these great plants.

Now we believe Iwarf Victoria Rape to be far superior to Dwarf Essexe Rape which we introduced many years ago; Dwarf Victoria is more bushy, more vigorous, thrifty and healthy. We feel sure by planting the two together you will vote for Victoria every time.

PRICE OF DWARF VICTORIA RAPE: Pkg., 10c; lb., by mail, 30c; by freight, lb., 15c; 5 lbs., 60c; 10 lbs., \$1.00; 50 lbs., \$4.00; 100 lbs., \$7.00.

Price of Dwarf Essex Rape: Pkg., 10c; lb., 30c, postpaid; by freight, lb., 10c; 10 lbs., 75c; 50 lbs., \$3.00; 100 lbs., \$5.50.

# SALZER'S SUPERIOR SAND VETCH.

There was no patch more eargerly sought and more carefully noticed by thousands of farmers who visited our Dakota farms than our Superior Sand Vetch. It was worth coming miles and miles to see. It was sown in May, but seen covered the ground and kept on growing and blooming and blooming and growing, surprising everybody. The yield must have been something like seven tons per acre. To show how rapidly it grows—we put a sample in our greenhouse in pure sand, and in seven days after sowing it was 10 inches tall, without a drop of moisture either in the sand or applied to it after sowing.

James M. Stone, Forestville,

Field of Sand Vetch, June 20th.

James M. Stone, Forestville, N. Y., October 9, has this magnificent testimonial on Salzer's Superior Sand Vetch:

"Your Sand Vetch is immense. Took two plants to the Dunkirk Fair. It excited great curiosity. Standing on a chair and holding it by the roots as high as I could reach, the tops still dragged on the ground.

The Department of Agriculture at Washington estimates the value of a plowed under crop of this Vetch as equiva-lent to putting into the ground \$16 to \$45 worth of commercial

10c; 10 lbs., 90c; 50 lbs., \$3.50; 100 lbs., \$6.75.

# SALZER'S BILLION DOLLAR GRASS.

Of this great grass Mr. George Merchant, Iron Co., Wis., says: "The Billion Dollar Grass is something immense. I sowed it in June and cut it two times, and it was 5 feet high each time; and now, Sept. 13th, it is again 5½ feet tall, which I will cut for the third crop of hay. Now it makes 15½ feet that it has grow, since early June. At that rate it will make 12 tons of magnificent hay per acre. (Sow 20 lbs. per acre.)

PRICE:

20(h CENTURY—By mail, lb., 30c; by freight, lb., 15c; 12 lbs., \$1.50; 20 lbs., \$2.00; 50 lbs., \$4.00;

# A Luxuriant Meadow==From Salzers Mixture.

Lives there a farmer whose heart is not made light and happy and glad at the sight of a luxuriant meadow? To get a magnificent stand of grass it is imperatively necessary to sow good Northern-Grown Seeds. Now, we were the first seedsmen in America to make a specialty of Northern-Grown Seeds. We now have scores of imitators, but none whose Grass and Clover seeds equal ours in vitality and vigor of growth. Our Grass Mixtures will be a source of constant pleasure and profit, and the fact that dozens of seedsmen imitate our is proof that they are good.

# SALZER'S EXTRA GRASS MIXTURES.

(Prices good until Dec. 15, 1909.)

These have secured for themselves a world-wide These have secured for themselves a world-wide reputation. They are being sown in great quantities all over America with excellent results. They are cheap, considering their high quality and choice strain, and are eminently practicalle. They are immeasurably superior to Clover and Timothy sown together, as these mixtures contain just the right quantities of the different varieties of grasses to do well. We carnestly recommend dealers and others to urge their farmer friends to give them a trial.

Sow from 14 to 21 pounds to the acre.

# Salzer's Renovator, or Quick Result, Grass Mixture.

Quick growing, rapidly producing grasses, pastures and meadows of quick and great luxuriance are often desired at once; for these we recommend our Renovator Grass Mixture. This mixture is gotten out for the purpose of a Renovator Grass Mixture—one giving quick results and of high germinating character. Farmers tested same on their worn out meadows with magnificent results; others seeded same alone, and received the finest stand of grass they had ever seen, while, without exception, everybody reports in glowing terms as to the vigor, the quality and permanency of this great mixture. MR. EMIL RAFFOLD, EAST POINT, GA., writes:

I sowed your Grass Mixture March 19th, on a miserable piece of land—"so poor, two men could not raise a fuss on it!" and yet on April 30th, in less than 42 days, I had the finest stand of grass in our county! Your Grass Mixtures do grow so luxuriantly.

THIS RENOVATOR, OR QUICK RESULTS MIXTURE

Is made up of such varieties of Grasses and Clovers as act quickly, give happy results in quick or short order and lend a permanency that is astonishing and surprising. This mixture we mowed in one season three times, and thereafter pastured it. That is all man can ask of Grasses, and our Renovator Grass Mixture will do for you what it has done for us and others. We predict for it immense popularity among the farmers of America, as it is fit to be sown—please remember this—fit to be sown in each county and state in the Union, and all the territories and Canada besides.

AT For renovating pastures, sow at the rate of 8 lbs. per acre.

ET For the laying lown of a new pasture or meadow, sow 16 lbs. per acre.

# Salzer's Superior Lawn Grass Seed.

It is the easiest thing in the world to grow a beautiful lawn. How often in our own city, as well as in other towns, do we find people spending from \$10.00 to \$25.00 sodding a lot, when 50c to \$1.00 worth of Lawn Grass Seed would do the work. would do it better and give a thicker swath and a greater growth than any sod you can find and put on anywhere. There is nothing that gives quicker growth and a thicker sod than Salzer's Superior Lawn Grass Mixture. It not only does well in the North, but it does well in the East, West, South, and anywhere and everywhere, and makes lawns, golf links, tennis courts, etc., as soft as velvet and green as emerald all summer. The Salzer Superior Lawn Grass Seed will form a close, thick turf in

# SIX WEEKS' TIME.

If people only knew how comparatively easy it is to make a lawn with Salzer's cawn Grass Seed, the days of using sod, with all the attendant expense, would soon be over.

# THE QUANTITY REQUIRED

for making new lawns is 3 to 5 bushels, or 42 to 70 pounds, per acre, or for renovating old lawns, 1 to 2 bushels. For a plot 15x20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns.

PRICE: Pt., 15c; qt., 25c; 2 qts., 45c; 4 qts., 85c, postpaid; by express. qt., 20c; 2 qts., 35c; 4 qts., 60c; 4 lbs., \$1.00; 7 lbs., \$1.50; bu. of 14 lbs., \$2.50; 50 lbs., \$8.10; 100 lbs., \$16.00.

# Salzer's Six Weeks Potato!

the great, earliest general purpose Potato!

It is without question that the Earliest Six Weeks Market Potato, which we describe on this and the next pages, is the best Potato of the age. It is ahead of Salzer's Earliest in quality and yield, but is not quite so early, but is 10 days earlier than Early Michigan, Bovee and such "claimed earliest sorts," There is another great advantage in planting Salzer's Earliest Six Weeks Market in preference to any other earlier sort, namely, it is always a reliable yielder. Salzer's Earliest Six Weeks Market, which we call "earliest" because it is a great improvement on the common Six

Potato, this monarch of early general purpose Potatoes! None in the wide world are its equal. It stands alone as the great, earliest general purpose Potato!

Pk., 75c; bu., \$1.50; bbl., \$3.60; 2 bbls., \$7.00; 5 bbls., \$17.25; 10 bbls., \$34.00 net.

prolific and a full week in advance of Early Rose. (Same as Improved Bermuda, Stray Beauty, etc.) Color, a beautiful medium. Growth, very uniform. Shape, nearly round. The flesh is white; very mealy, when cooked. This potato is im favor with Southern market gardeners and truckers, and is shipped to the Northern markets in enormous quantities in. It grows well at the North. The eyes are slightly depressed and the skin is smooth, making a handsome early potato in t. Its beauty, good quality, extreme earliness and great productiveness make it highly profitable.

## Write for special prices if wanted in large lots.

# Salzer's EXTRA EARLY OHIO POTATO.

Earliness is a great advantage to the gardener and puts this variety at the head, second only to Salzer's Earliest Six Weeks, Sunlight and, of course, Salzer's Earliest. It is a special favorite with marketmen and one of the most profitable pota-toes they can grow. The sprout is and one of the most profitable potatoes they can grow. The sprout is very strong, and the vines grow erect, making it easy to cultivate, and on account of its early maturity you can get the highest market prices. They keep firm until late in spring. This variety is frequently sold by Iowa and by other seedsmen as the Six Weeks. That's a fraud. The only true Six Weeks market stock in America can be had only of us. had only of us.

Price this fall: 1 lb., 30c; 3 lbs., 75c, postpaid; by freight, pk., 50c; bu., \$1.30; bbl., \$3.00; 10 bbls., \$29.50 net.

# SALZER'S SIX WEEKS COLLECTION.

\$4.00 a Bbl.

Earlier than its parent. Very fine. Peck, 50c; bu., \$1.30; bbl., In this collection, we have packed four extremely early varieties \$3.00; 10 bbls., \$29.50.

Potatoes and call them the Six Weeks Collection.

The price is extremely low.

The Collection is composed as follows:

3 pecks Salzer's Early Six Weeks, 3 pecks May King, 1 pecks Famous Bliss Triumph, 2 pecks Daughter of Early Rose.

POTATOES FOR THE SOUTH.

As a rule, the Southern planter does not need his Potatoes before December or January and we will be very glad to give a delivered price on Potatoes in 5 and 10 barrel lots, delivered at Ft. Worth,

DAUGHTER OF EARLY ROSE.

In all 11 pecks, for which we ask, \$1.00 a bbl.; 3 bbls., \$11.50. Texas, and the Texas customer paying the freight from there on.

# Salzer's May King Potato.

1909

John A. Salzer Seed Co., La Crosse, Wis.
Salzer's May King P.

Salzer's May King Potato again ahead! Delicious new potatoes on our table, dug out of my garden today, the 4th of June, despite the late, backward spring! My intensive gardening and Salzer's marvelously early May King did it.

Price: Lb., 50c; 3 lbs., \$1.00, postpaid. By freight: Pk., \$1.00; bu., \$1.75; bu., \$2.75; bbl. of 2% bu., \$5.50; 3 bbls., \$16.00; 7 bbls., sufficient for 2 acres, \$35.00 net.

# SALZER'S GREAT CONSTELLATION SEEDER, CULTIVATOR, ETC., \$8.00.

Here's the greatest garden tool of the century. Nothing ever before offered comes up to it in utility, ease and perfection. It sows the seed, cultivates, rakes, plows, covers and takes care of the garden ever thereafter. It is almost human. It is really a most remarkable tool and can be used as shown in the illustrations hereunto appended, in the most manifold pended, in the most manifold ways. You can use it as a single-wheel seeder or as a double-wheel seeder, as a furdouble-wheel seeder, as a fur-rower or as a plow, or as a weed exterminator, or again as a rake, or as a fine cultivator, or as a hoe on both sides of the rows—in fact, in every shape, way or manner that a cultivator, or a hoe, or a seeder can be used, this Con-stellation answers with the most perfect workmanship imseeder can be used, this Constellation answers with the most perfect workmanship imaginable. In this great Constellation, all of the errors of the old drills have been overcome and new additions made, so that today this Salzer's New Constellation is the only perfect tool. Price, only \$8.00; with Plow No. 11, \$8.75.

This is positively the finest, earliest Potato for Texas, Al-

Cultivator and Rake.....\$4.77 Matthew's Double Wheel Hoe (with Hoe Blades only).....

# Cahoon Hand Seeder.

Sows all kinds of Grain and Grass Seeds, and at a common walking gait, sows from 4 to 8 acres per hour, throwing Wheat, Rye and Barley 30 feet; Hemp, 28 feet; Oats, 23 feet, and Timothy, 18 feet. The bag and hopper will hold about 22 quarts. Price of Cahoon seeder, only \$3.00; 3 for \$8.25.

# Cyclone Seeder.

this

splen-did

tool, this

marvel

La Crosse Hand Seeder.

Here is the Seeder for rich or poor; splendid in all respects, do-ing its work per-

ing its work perfectly. It will pay for itself in sowing 5 a cres twice over. It was brought forward to meet the demand for a cheap, perfect hand seeder. Its great advantage is that it sows the ground three times in going over once, leaving no possible chance of skipping. From 20 to 30 acres can be sown in a day if the seed is handy. Full directions accompany each machine. Price \$1.25; 3 for \$3.50. \$3.50.

# Thompson's Wheelbarrow Seeder.

The Michigan Wheelbarrow Seeder.

Potato Digger.

A great labor saver, works quickly, is never out of repair, and pleases everybody. No trouble to dig 500 bushels per day. It is cheap and effective. Get one for the boys and make the digging of potatoes the fun of the farm work. You will like it. The price is very low. Price, only \$6.50.

CULTIVATOR.

COMBINED HARROW AND

marvel of utility, only \$3.90.

Claimed by ten thousand farmers, to whom we have sold, as the most magnificent—best tool on earth. By means of a lever attachment the Cultivator can easily be changed to run narrow or wide, as the operator desires. Teeth car easily be changed to run narrow or wide, as the operator desires. Teeth car with it for \$50.00. Now, you will talk just the same way if you purchase one of these tools. They are of steel, diamond shaped. It is a grand Harrow and Cultivator. When once on the farm you would not part will not forego the pleasure of having one on your farm. It is splendlid for Corn, Tobacco, Cotton, Potatoes, etc. It thoroughly pulverizes. For close work it's A No. 1. Teeth can be quickly changed, reversed, etc., making four changes—so you really have four different winds of cultivators in this one. Can be narrowed to 9 inches and extended to 30 inches. Weight, 60 lbs. Price of this Combined Harrow and Cultivator, with wheel and lever, only \$3.90. Harrow and Cultivator, with wheel and lever, only \$3.90.

# SALZER'S GREAT IDEAL CULTIVATOR.

Price, Figs. 1 to 5, \$4.90.

This is the tool that has lived in our fancy and dreams for years And we now shout and sing because we have found all those splendid qualities that we have longed for. The cut fully shows the Ideal with our new Pattern Handle and Braces. These are absolutely new and the most effective and stiffest combinations known, at once making the tool rigid, yet allowing adjustment of handles in height and sidewise. This tool, as shown in Figs. 1 to 5, we sell for \$4.90. Write for prices on extras, such as extra Sweeps (Fig. 10), etc., etc.

Write for wholesale prices on larger orders.

# Rivet Punch.

# 20th Century Automatic Cream Separator.

One of the greatest inventions 90,000

of these remarkable Cream Separators sold in the past few years. Just the thing that farmers who keep from 1 to 10 cows have been looking for. It is a Separator that we do not see how they can get along without; indeed, when once used they would not part with it for fifty times the cost. It separates the cream from the milk in from 30 minutes to one hour, and leaves much less than 1 per cent butter fat on the milk, which is really as good as the very best Separators costing fifty times as much can do. of these remarkable Cream Sepamuch can do.

# THE FARMERS' FORGE.

There is not a tool or instru-ment or machine that we have sold with greater pleasure and with more satisfaction than the with more satisfaction than the Farmers' Forge. It is a forge that is so simple, and yet so durable that every farmer will be more than pleased and satisfied with same. We would not part with several of these that are being used on our different farms for five or ten times the cost.

our different farms for five or ten times the cost. They will save many a farmer double and treble

They will save many a farmer double and treble the cost annually.

Indeed, this is just the thing, Mr, Farmer, that you have been looking for—a popular, durable, cheap, always ready, warranted safe, perfect farmers' forge. The hearth is nearly 30 inches high and is 24x36 inches square by 12 inches deep, and is made absolutely fire proof by its peculiar construction. The blower is 11½x4½ inches. Everything about the forge is A No. 1, and will surely please you. The weight is about 45 pounds. Price, this fall, \$4.00.

# 20th Century Deep-Setting Cream Separator.

Many people prefer a process for separating cream from the milk so they can have undiluted milk for table use. This separator meets this demand in every respect. The milk is all in one vessel, no skimming in pans or crocks to wash, and is easily kept clean. Sweet milk can be drawn from the Separator at any time without disturbing the cream. We know you will appreciate this Separator should you wish to use this variety. Satisfaction is guaranteed or money will be refunded.

Salzer's 20th Century Sewing Machine.

In the design of Salzer's 20th CENTURY every latest improvement and up-to-date feature is embodied, and above all, the machine is peculiarly simple, thus insuring ease of running and great durability, rendering it almost impossible for the machine to get out of order. In quality of material used, accuracy of workmanship, and fitting and perfection of finish, we claim that Salzer's 20th CENTURY Machine is without an equal. We warrant it for 25 long years!

The motion of the shuttle and of the feed is taken directly from an eccentric on the main shaft, thus insuring the working of these two most important parts in absolutely correct relation with

each other

The Machine makes what is known as the double lock stitch, the two threads being interlocked in the center of the goods, forming a stitch which appears the same on both sides. The upper thread is run directly from the spool to the eye of the needle without passing through any hole until the needle is reached.

# CIRCULAR.

### BOSS HUSKER.

## BOSS CALF WRIST SUPPORTER.

This is an excellent supporter for the wrist in husking corn. Price, each, 15c; 3 for 35c.

Be the Best Dressed Woman in Your Locality.

Every woman wants to dress well. It is a duty she owes to herself to look as well as possible, but you know how difficult and expensive it is, especially if you live on a farm or in a village and small towns, to get dresses that entirely meet your expectation. They never quite come up to what you thought they would. They don't fit properly and entirely lack the style of the city-made garments.

Now, by our simple instruction we can quickly and cheaply teach you to make your own dresses just as you want them, in the latest mode, exactly as the famous and expensive city dressmakers would make them, but the costs will be even less than the dresses you now wear. You can make your own and children's clothes better than any dressmaker in your community. If you want to add to your present income we will teach you so you can make from \$15.00 to \$50.00 a week, no matter who you are or where you live, on a farm or in a town or city.

2,000 GRADUATES PRAISE THE COLLEGE.

West Hoboken, N. J.,

Dear Madam: I can't say enough in praise for the knowledge which I have received through your lessons. I have studied other systems, but none are as easy to master as yours. You make everything so easy for one, that one can't help but understand it.

# PREMIUMS

In order to stimulate large orders this fall we are offering the following three handsome premiums; viz., the Bell, The Gentleman's Watch and The Ladies' Watch.

These have become immensely popular and with a little effort, your order added to your neighbors' can be made large enough to win any or all of these three handsome premiums.

# "OUR PREMIUM BELL."

"OUR PREMIUM BELL."

It is just the thing you have been looking for, just the thing you want, just the thing you need, as it is a great saving of time and a saving of many a step to the good housewife and the folks at home. It is a great convenience. Every farmhouse will find a bell to call their help quickly of tremendous advantage. Here is a bell that you can get with little effort, with no cost to you, whose clear sound can be heard a full mile.

(An hour spent with your neighbors soliciting orders for our seeds earns the bell easily.)
